2024 IIHF Players of the Year

The IIHF's Historical Committee introduced Player of the Year Awards starting with the 2022-23 season. The trophy will be awarded every year to one female player and one male player (goalie, defender, forward) who best demonstrates exceptional skill, determination, team success, and sporting character on and off the ice during the preceding season.

The players must have competed in at least one IIHF tournament at any level (for women: Olympics, Women's World Championship, Women's U18 World Championship. For men: Olympics, Men's World Championship, World Junior Championship, Men's U18 World Championship) *as well as* in a domestic league of the highest calibre for that country, the combined performances of which are considered superior to all other players. Career achievements have no merit in the voting. Candidates must be selected only based on the previous year's achievements.

Voting for the award will be carried out by appropriate members of the IIHF Family (30%) and the media (70%). For women, the media will be represented by at least one person from 16 countries—representing the 10 that participate in the top level of the Women's Worlds and the next 6 in Division I-A—totalling more than 40 names. For the men, at least one person from 22 countries—16 from the top level of the Me's Worlds and the next 6 in Division I-A—totalling more than 90 names.

The Trophy

The IIHF commissioned Glasco in Berlin to design and produce the trophies. The sticks are made of brass and the base is made of wood. The top is steel, and the logos and figures were engraved by laser followed by a coating of 24k gold. All of this was carried out at Glasco's manufacturer in Wrocław, Poland. The trophy stands 500mm and weighs about 7 kg.

Nominees for 2023-24

WOMEN

Sandra Abstreiter (G, GER), Alex Carpenter (F, USA), Kendall Coyne Schofield (F, USA), Jenni Hiirikoski (D, USA), Alina Müller (F, SUI), Marie-Philip Poulin (F, CAN), Natalie Spooner (F, CAN)

IIHF Congress

GENERAL CONGRESS

The General Congress is the IIHF's highest legislative body and makes decisions about the rules of the game, the statutes, and bylaws. The General Congress, which is made up of representatives from all IIHF member associations, elects the president and the council.

With some exceptions, the General Congress is held every fourth year. The General Congress was held for the first time in 1975. Prior to that, the federation elected the president and the council at the Annual Congress that usually was held in conjunction with the IIHF Men's World Championship.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

ANNUAL CONGRESS

The Annual Congress meets every year during the IIHF Men's World Championship or where applicable at the time of the General Congress. It is organized by the IIHF office in co-operation with the hosting member national association.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

SEMI-ANNUAL CONGRESS

The Semi-Annual Congress meets every year in the autumn. It is organized by the IIHF office in co-operation with the hosting member national association of the upcoming Men's World Championship.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

EXTRAORDINARY CONGRESS

The Extraordinary Congress meets within three months following the request for such meetings. An Extraordinary Congress will be called only upon request of one third of the member national associations in good standing, or by Council. The items on the agenda are limited to those specified at the time the Extraordinary Congress is requested.

LIHG-IIHF History

(Ligue Internationale de Hockey sur Glace—International Ice Hockey Federation)

The change in usage from LIHG to IIHF was gradual and not precipitated by one particular decision at any one meeting. LIHG was used at the time of the organization’s founding on May 15, 1908, because the founder, Louis Magnus, was French, and in the ensuing years many of the presidents and top officials from Belgium and Switzerland also spoke French.

The LIHG formally adopted “International Ice Hockey Federation” as the English translation of LIHG on September 1, 1946. Still, it was many years before that abbreviation took hold.

The last time the LIHG logo appeared on the cover of the organization’s minutes books occurred at the 1954 Annual Congress in Stresa, Austria. This also marks the last time the title page was in French only. At the next Congress, the 39th edition in Dusseldorf, West Germany, the title page was in French and English and the LIHG logo was absent. In 1963, the cover for the Congress minutes was in English only.

The last time the contents of the Congress minutes were bilingual was at the 7th Bi-Annual Congress in Ljubljana, Yugoslavia, in March 1966. At the next Congress, the 50th Annual Congress, the text was in English only and there was no reference at all to LIHG.

Later, the Congress minutes became bilingual again, but the second language to complement English was now German. This is currently how the minutes are kept and the IIHF’s history recorded.

Important Developments in International Hockey

Origins

1799—In a letter written in Chesham, England, William Pierre Le Cocq wrote: “I must now describe to you the game of Hockey; we have each a stick turning up at the end. We get a bung [a plug used as a stopper on barrels]. There are two sides. One of them knocks one way, and the other side the other way. If any one of the sides makes the bung reach that end of the churchyard, it is victorious.”

October 21, 1825—Sir James Franklin wrote in a letter: “We endeavour to keep ourselves in good humour, health, and spirits by an agreeable variety of useful occupation and amusement. Till the snow fell, the game of hockey, played on the ice, was the morning’s sport.”

1873—James Creighton devises informal rules for a new winter game in Montreal, a game which later became known as ice hockey.

March 3, 1875—The first true hockey game is played. The pre-announced indoor game between two named teams, officiated by a referee and using a puck, is played at Montreal’s Victoria Skating Rink. Goal posts are six feet wide and the game lasts 60 minutes. The rink’s dimensions are approximately 200’ x 85’, the standard by which all future North American rinks are built. In 2008, a plaque to honour this game is dedicated at the Bell Centre, across the street from the arena’s original location.

- 1. The game shall be commenced, and renewed by a Bully from the centre of the ground. Goals shall be changed after each game.*
- 2. When a player hits the puck, any one of the same side who at such moment of hitting is nearer to the opponents’ goal line is out of play, and may not touch the ball himself, or in any way whatever prevent any other player from doing so, until the ball has been played. A player must always be on his own side of the ball.*
- 3. The puck may be stopped, but not carried or knocked on by any part of the body. No player shall raise his stick above his shoulder. Charging from behind, tripping, collaring, kicking or shinning shall not be allowed.*
- 4. When the puck is hit behind the goal line by the attacking side, it shall be brought out straight 15 yards, and started again by a Bully; but, if hit behind by any one of the side whose goal line it is, a player of the opposite side shall hit it out from within one yard of the nearest corner, no player of the attacking side at that time shall be within 20 yards of the goal line, and the defenders, with the exception of the goal-keeper, must be behind their goal line.*
- 5. When the ball goes off side, a player of the opposite side to that which hit it out shall roll it out from the point on the boundary line at which it went off at right angles with the boundary line, and shall not play it until it has been played by another player, every player being then behind the ball.*
- 6. On the infringement of any of the above rules, the ball shall be brought back and a bully shall take place.*
- 7. All disputes shall be settled by the Umpires, or in the event of their disagreement, by the referee.*

December 26, 1894—The North Avenue Rink, the first artificial arena in the United States, opens. The rink dimensions are 55’ x 250’.

Teams and Players

1883-1920: 7 players—Teams in Canada standardize the size of rosters and names of position. Each side now has seven men, and their positions are called left wing, right wing, centre, rover, point, cover point, and goalie.

1920: 6 players—During Congress at the 1920 Olympics, the IIHF decides to eliminate the rover, reducing teams to six men a side. The positions are now called goalie, defencemen (two), left wing, right wing, centre (forwards).

2003: 6 players for regulation, 5 for overtime (goalie, two defencemen, two forwards).

2019: 6 players for regulation, 4 for overtime (goalie, 3 skaters).

IIHF Business

1921—The first LIHG (IIHF) European Championships after the First World War is contested. Only Sweden and Czechoslovakia take part in the Stockholm event, which the Swedes win, 7-4.

1930—The first official Men's World Championship outside the Olympics takes place in Chamonix (France), Berlin (Germany), and Vienna (Austria). The event will be held annually in all non-Olympic years.

1939-47—There are no Men's World Championships or Olympics played during the Second World War.

March 9-17, 1951—At the Semi-Annual Congress in Paris, the IIHF decides not to participate in the Olympics after a rift with the IOC.

1992—The IIHF bans body-checking from women's hockey.

1994—The Lillehammer Olympics mark the introduction of video review. Teams are also now allowed one, 30-second timeout each game.

1997—IIHF Congress decides to take away the red line for the purpose of allowing the two-line pass, the most important rule change in international hockey since 1969. The new rule is implemented for the first time at the 1999 Men's World Championship in Norway.

2006—IIHF Congress eliminates tie games by introducing overtime and penalty-shot shootouts to games during all rounds of play at all tournaments. The three-point system is simultaneously introduced, giving a team that wins in regulation time three points, while giving a win in overtime or shootout winner two points and a loser in overtime or a shootout one point. New standards for smaller goalie equipment (notably blocker, glove, and pads) are established for the upcoming 2006-07 season.

2008—The IIHF adopts the four-official system (two referees, two linespersons).

2015—The IIHF utilizes the four-official system in women's hockey.

2018—In order to improve player safety and reduce the possibility of injury on ice, the IIHF introduces a rule specifically for a Late Hit.

The Goal Crease

1936-37—A large semi-circle approximately five metres in diameter extending about three metres in front of the goal line.

1947-70—A small rectangle with outside lines 30 cm from each post extending 1.25 metres in front of the goal line.

1971-78—A semi-circle starting at either end approximately 30 cm from each post and curving around the goal to a maximum distance of 1.25 metres in front of the goal line.

1979-92—A return to the rectangular crease from 1947-70.

1993-94—A hybrid of the two previous creases; a rectangle with outside lines 30 cm from each post extending 1.25 metres in front of the goal line, and outside this rectangle the semi-circle starting approximately 30 cm outside each outside line and arcing around the rectangle such that the arc touches the top corners of the rectangle farthest from the goal. The total width along the goal line from one end of the outside arc to the other is 3.66 metres.

1995-2017—A semi-circle only, the inner rectangle having been removed, and the remaining semi-circle now painted blue.

2018-present—The IIHF adopts the NHL crease.

International Timeline

1897—Canadian champion skater George Meagher travels to Paris, France and brings hockey equipment with him. He oversees a series of friendly games between Paris' Palais de Glace Club and bandy clubs from London and Glasgow.

March 2017—The United States national women's team threatens to boycott the Women's Worlds in Michigan, but a contractual resolution with USA Hockey prevents the action.

December 29, 2017—Canada and the United States play outdoors at the World Junior Championship in Buffalo.

January 6, 2018—Russia beats Canada, 3-2, to start WW18, a result which eventually leads to a Sweden-United States gold-medal game, the first time both North American countries did not qualify for the finals.

February 2018—Because of doping violations at the 2014 Olympics, Russia is forced to compete at the 2018 Olympics as "Olympic Athletes from Russia."

April 2019—The Women's World Championship expands from eight teams to ten.

April 13, 2019—Finland defeats Canada, 4-2, in the semi-finals, advancing to the gold-medal game at the Women's World Championship for the first time.

IIHF Trophies

The winning team of each category of top level IIHF tournament wins a version of the same trophy design. It was first awarded at the 2001 IIHF Men's World Championship to captain Robert Reichel of the Czech Republic. The trophy was designed by Andre Ricard, one of the world's distinguished art designers. He produced a trophy which weighs 10 kilos, 514 grams. It stands 46 centimetres tall, and the bowl has a diameter of 26 centimetres. The bowl is mainly made of silver with parts of gold, and the base is from the precious woods ebony and bobinga.

Previously, the winning team at the World Championship won a trophy, which changed in design many times between 1930 and 2000. Other tournaments adopted the Ricard trophy, but not at the same time. The World Junior Championship and Men's U18 World Championship awarded a plate from 1977 (WM20) and 1998 (WM18) until 2002, adopting the Ricard in 2003. The Women's World Championship used the Ricard version starting in 2004 and also presented a plate from 1990 to 2001. Finally, the Women's U18 World Championship has always used the Ricard trophy because that tournament didn't begin until 2008.

Triple Gold Club (est. 2001)

These 30 players and one coach form the unique group that has won the IIHF Men's World Championship, the Olympic Ice Hockey tournament, and the Stanley Cup. Being given credit with one of these honours requires the player to have participated in at least one game of the event. Players are entered chronologically by date when the final championship of the triple has been achieved. If two or more players complete their triple on the same date, priority is given to the player who was the first to win one of the three titles. If two or more players have identical accomplishments, priority is given to the player who completes the triple at the younger age.

Valtteri Filppula became the first Finnish player to join the Triple Gold Club after captaining Finland to gold at both the Olympics and Men's World Championship in 2022. Photo: Andre Ringuette/IIHF

Triple Gold Club Notable Information

TIMELINE

1926 Dunc Munro helped the Montreal Maroons win the Stanley Cup. He had previously played on Canada's gold medal Olympic team of 1924, becoming the first player to win these two honours during a career.

1935 Vic Lindquist helped Canada win gold at the Men's World Championship. He had previously played on Canada's gold-medal Olympic team in 1932, becoming the first player to win these two honours during a career.

1939 Pat McReavy played on the Stanley Cup-winning Boston Bruins. He had previously helped Canada win Men's World Championship gold in 1938, becoming the first player to win these two honours during a career.

1958 Connie Broden made history by winning Men's World Championship gold (Canada) and the Stanley Cup (Montreal Canadiens) in the same year.

1980 Ken Morrow became the first player to win Olympic gold (United States) and the Stanley Cup (New York Islanders) in the same year.

1980 Swedes Stefan Persson and Anders Kallur became first European-trained players to win the Stanley Cup (NY Islanders). Neither player ever won a Men's World Championship or Olympic gold, however.

1987 For the first time, players who played in the NHL went to the Men's World Championship at the end of the season and won gold. Sweden's victory was historic for Hakan Loob (Calgary), Mikael Andersson (Buffalo), Tomas Sandstrom (NY Rangers), and Anders Carlsson (New Jersey).

2006 Sweden became the first nation to win Olympic gold and Men's World Championship gold in the same year. Eight players completed this historic double: Henrik Zetterberg, Jorgen Jonsson, Kenny Jonsson, Niklas Kronwall, Mika Hannula, Mikael Samuelsson, Ronnie Sundin, and backup goaltender Stefan Liv.

2007 Scott Niedermayer (CAN) wins the Stanley Cup with Anaheim, becoming the only Triple Gold Club member to have won the Stanley Cup with two teams (New Jersey).

2010 The IIHF honoured the first 22 members of the Triple Gold Club at a special ceremony in Vancouver during the Olympics. All 22 players attended the landmark presentation.

2010 Eric Staal won Olympic gold with Canada, thus completing Triple Gold Club honours in the minimum possible number of events, one for each honour. As well, Mike Babcock became the first—and still only—coach to achieve Triple Gold Club status after the Olympic victory.

2010 Jonathan Toews became the youngest Triple Gold Club member after Chicago won the Stanley Cup. He was only 22 years and 41 days old.

2015 Sidney Crosby (CAN) joins the Triple Gold Club with Men's World Championship gold, becoming the only player to do so as team captain of all three Triple Gold Club honours.

2022 Valtteri Filppula becomes the first Finn to join the Triple Gold Club after winning both Olympic gold and World Championship gold in the same year.

EVENT INFORMATION

Current Men's World Championship Regulations

TIE BREAKING SYSTEM FOR IIHF CHAMPIONSHIP

The tie-breaking system for two teams with the same number of points in a standing will be the result of the game between the two teams, the winner of the game taking precedence.

Because the three-point system does not allow a game to end in a tie, the following tie-breaking procedure is applicable when three or more teams are tied in points in a Championship standing:

Should three or more teams be tied on points, then a tie-breaking formula will be applied whereby a sub-group amongst the tied teams is created. This process will continue until only two or none of the teams remain tied. In the case of two tied teams remaining, the result of the game between the two would then be the determining tie-breaker. In the case of none of the teams being tied, the criteria specified in the respective step applies.

- Step 1: Taking into consideration the games between each of the tied teams, a sub-group is created applying the points awarded in the direct games amongst the tied teams from which the teams are then **ranked** accordingly.
- Step 2: Should three or more teams still remain tied in points then the better **goal difference** in the direct games amongst the tied teams will be decisive.
- Step 3: Should three or more teams still remain tied in points and goal difference then the highest number of **goals scored** by these teams in their direct games will be decisive.
- Step 4: Should three or more teams still remain tied in points, goal difference, and goals scored, the results between each of the three teams and the closest best-ranked team outside the sub-group will be applied. In this case, the tied team with the best result (1. points, 2. goal difference, 3. more goals scored) against the closest best ranked-team will take precedence.
- Step 5: Should the teams still remain tied, then the results between each of the three teams and the next highest best-ranked team outside the sub-group will be applied.
- Step 6: Should the teams still remain tied after these five steps have been exercised then Sport considerations will be applied and the teams will be ranked by their positions coming into the Championship (seeding).

MEDAL ROUND OVERTIME PROCEDURE

- In case of a tie at the end of regulation time in a quarter-final, semi-final, and bronze-medal game, there will be a three-minute intermission followed by a 10-minute, sudden-death overtime period played 3-on-3. The teams will defend the same goals as in the third period. The team which scores first is the winner. If no goal is scored during the sudden-death overtime, there will be a penalty-shot shootout (PSS).
- In the gold-medal game there will be a full intermission during which the ice will be resurfaced, followed by unlimited overtime until a goal is scored. Periods will be a standard 20 minutes played 3-on-3. The teams will change ends.

THREE-ON-THREE OVERTIME PROCEDURE: PENALTIES

- At no time will a team have fewer than three players on the ice. This may require a fourth or fifth skater to be added in the event penalties are assessed.
- When regulation time ends with a 5-on-3, teams will start the overtime period 5-on-3. Once player strength reaches 5-on-4 or 5-on-5, player strength is adjusted at the next stoppage of play to 4-on-3 or 3-on-3, as appropriate.
- When regulation time ends and teams are playing 4-on-4, teams will start overtime 3-on-3.
- If, at the end of regulation time, teams are 3-on-3, overtime starts 3-on-3. Once player strength reaches 4-on-4, 5-on-4 or 5-on-5, player strength is adjusted at the next stoppage of play to 3-on-3 or 4-on-3, as appropriate.
- If a team is penalized in overtime, the teams will play 4-on-3. If both teams incur minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3-on-3.
- In overtime, if a team is penalized such that a two-man advantage occurs, teams will play 5-on-3. At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4-on-3 or 3-on-3, as appropriate.

IIHF Eligibility Regulations

To play in any IIHF World Championship, the Olympic ice hockey tournament, and the qualifications to these competitions, players must fulfill the following qualification requirements:

1. Each player must be under the jurisdiction of an IIHF member national association;
2. Each player must be a citizen of the country he represents.

ACQUIRING A NEW NATIONAL ELIGIBILITY (THE "TWO-YEAR" CASE)

In the case where a player has changed his citizenship or has acquired another citizenship and wants to participate for the first time in an IIHF competition representing the new country.

A man must prove that he has participated for at least two consecutive hockey seasons and 16 consecutive months (480 days) in the national competitions of his new country after his 10th birthday, during which period he has neither transferred to another country nor played ice hockey within any other country.

A woman must have participated on a consistent basis for at least one hockey season and have been member of the new national association for at least 8 consecutive months (240 days) during that period.

A man must have an international transfer card (ITC) that shows the transfer to the national association of his new country and which was approved and dated at least 16 months (480 days) before the start of the IIHF competition in which he wishes to participate.

For women, the period is 8 months (240 days).

CHANGE OF NATIONAL ELIGIBILITY (THE "FOUR-YEAR" CASE)

A player who has previously participated in IIHF competition can switch national eligibility (but only once in a player's career) if that player is a citizen of that new country.

A man must have participated for at least four consecutive years (1,460 days) in the national competitions of his new country, during which period he has neither transferred to another country nor played ice hockey within any other country and has not played for his previous country in an IIHF competition.

For women the period is two consecutive years (730 days).

A man or woman must have an international transfer card (ITC) that shows the transfer to the national association of the new country and which was approved and dated at least four years (two years for women) before the start of the IIHF competition in which the player wishes to participate.

Tournament Eligibility—Age

2024 WM 20	Players must be born January 1, 2004 or later
2024 WM18 & WW18	Players must be born January 1, 2006 or later

Player Entry Protocol

Teams submit the names of the participating players at the first Championship Directorate on the first day of the tournament. The maximum number of players allowed on a Team Registration Form at the beginning of the event is 20 skaters and 3 goalies. The minimum is 15 skaters and 2 goalies.

At the first Directorate meeting on the day of the start of a tournament, the teams must name at least the minimum number of 15 skaters and 2 goalkeepers. The players entered must be present at the championship venue by the time of the Directorate meeting.

The remaining players up to the allowed maximum of 22 + 3 (for World Championship, top level) must be submitted for players' control two hours before any of the following championship games. During a game, a team may enter (dress) 20 skaters and 2 goalkeepers on the Official Game Sheet, with the emergency goalkeeper standing by if a goalie entered to the Official Game Sheet is unable to play.

Doping Control

Doping controls were first introduced by the IIHF at the 1969 Congress.

HOW IT WORKS

After every game sanctioned by the IIHF, a player from each team is taken directly from the ice to the doping-control station by the medical supervisor for that game. The player is not permitted to leave the room until submitting a sample. In IIHF events, IIHF staff handles doping, but in Olympics events it is IOC officials who handle all doping matters.

In the event of a positive test, the player is automatically suspended for the remainder of the tournament. The goals and points earned by the doped player's teams become invalid unless the opposite result is more favourable for the non-offending team.

NOTABLE DOPING INFRACTIONS

February 8, 1972—Alois Schloder (FRG) tested positive and was suspended the rest of the tournament. He was allowed to play at the Men's World Championship several weeks later because it was discovered that his doctor has prescribed drugs for an illness and Schloder was found not to be at fault for "doping."

April 6, 1974—Ulf Nilsson (SWE) tested positive for ephedrine after his team's 4-1 win over Poland. The score was reversed to Poland 5-Sweden 0.

April 12, 1974—Goalie Stig Wetzel (FIN) tested positive for ephedrine after his team's 5-2 win over Czechoslovakia. The score was reversed to Czechoslovakia 5-Finland 0.

February 10, 1976—Frantisek Pospisil (TCH) failed a doping test after his team's 7-1 win over Poland. The score was reversed to Poland 1-Czechoslovakia 0.

February 18, 1988—Forward Jaroslav Morawiecki (POL) tested positive for testosterone after his team beat France, 6-2. Morawiecki was banned from international competition for 18 months and France was officially awarded a 2-0 win, but not the points in the standings.

April 18, 1989—Corey Millen (USA) tested positive after his team's 8-2 loss to Canada. The score was changed to 8-0.

May 2, 1994—Bill Lindsay (USA) tested positive after his team's 7-2 loss to Finland. The score was changed to 7-0.

January 21, 2002—Mattias Ohlund (SWE) tested positive for acetazolamide in out-of-competition testing, but no suspension was handed down because he proved this drug was necessary for recovery from several serious eye operations.

February 23, 2002—Vasili Pankov (BLR) tested positive for a nandrolone given him by a team doctor.

April 30, 2005—Timofei Filin (BLR) tested positive for nandrolone after his team's 2-1 loss to Slovakia. He was immediately removed from the Belarus team roster and was suspended from international competition for two years.

May 1, 2005—Olexander Pobyedonostsev (UKR) tested positive for nandrolone after his team's 3-2 loss to Sweden. He was immediately removed from the Ukraine team roster and was suspended from international competition for two years.

February 23, 2014—Nicklas Backstrom (SWE) was suspended just hours before the gold-medal game at the 2014 Olympics after testing positive for pseudoephedrine found in a common allergy medication he was taking. No further action was taken.

August 23, 2019—Yevgeni Kuznetsov (RUS) suspended four years after testing positive for cocaine on May 26, 2019, during the Men's World Championship in Slovakia. The suspension ends on June 12, 2023.

Video Goal Judge Application

The use of the video replay of disputed goals is approved by the IIHF. All available television pictures must be provided and used by the video-goal judge. The following are the only situations that are subject to video-goal judge review:

1. To determine if the puck has completely crossed the goal line.
2. To determine if the puck entered the net prior to or after the goal frame was dislodged.
3. To determine if the puck entered the net prior to or after expiration of time at the end of a period or the game.
4. To determine if the puck was directed into the net by a hand or kicked into the net by a skate.
5. To determine if a puck deflected into the net off a game official.
6. To determine if the puck was struck with a high stick, above the height of the crossbar, by an attacking player, prior to the puck entering the net.
7. To establish the correct time on the official game clock at the point that the puck completely crossed the goal line, provided that the game time is available on the video-goal judge's monitor.
8. To determine goaltender interference when a goal is scored.

The review can be requested only by the video-goal judge or a referee.

VIDEO-GOAL JUDGE PROCEDURE

- When the referee requests a video review of a disputed goal, he contacts the video goal judge from the scorekeepers' bench using a telephone.
- When the video goal judge requests a review, he will contact the official scorekeeper bench using the telephone during the first stoppage of play.
- If the video review is inconclusive, the video goal judge will report this to the referee who will then make the final decision.
- A team cannot request a video review of any play.
- If the puck enters the net and play is stopped, the referee or the video-goal judge asks for a review during this stoppage. If there is no review during this stoppage, the result is final and no review will be permitted after play has resumed.
- If the puck enters the net and play continues, the review will take place during the first stoppage after the incident. If no review is performed during the first stoppage, then no review will be permitted after play has resumed.
- When it is indicated that there is to be a video review, all players must go to their respective team benches.
- A video review may be called even though the first stoppage of play signals the end of a period or the end of a game.

Overtime Procedure

- Teams will not change ends for the overtime period.
- In preliminary-round games, a 3-on-3 overtime period of up to five minutes will be played (following a three-minute intermission during which time the ice will be shoveled). In relegation playoff games, quarter-finals, semi-finals, and bronze-medal game, the overtime will be ten minutes.
- The gold-medal game will be played 3-on-3 and have unlimited overtime until a goal is scored. Periods will be standard 20 minutes and be separated by a standard intermission of 15 minutes.

- The penalty-shot shootout will be standardized to five shots for each side during all stages of tournament play.

Penalty-Shot Shootout Procedure

If, following the completion of regulation time in any IIHF Championship game and the score of such a game is tied, the teams will play a 3-on-3 overtime period. The team scoring first is declared the winner.

If no goal is scored in the overtime period then the IIHF Penalty-Shot Shootout Procedure will apply. The following procedure will be utilized:

- Shots will be taken at both ends of the ice unless the referees deem that one end of the ice is in poor enough condition to disadvantage one team, in which case only one end will be used. The longitudinal centre section of the rink will be dry-scraped prior to the Penalty-Shot Shootout.
- The procedure will begin with five different shooters from each team taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Penalty-Shot Shootout will be the four goaltenders and all players from both teams listed on the official game sheet except any player(s) whose penalty had not been completed when the overtime period ended. This player(s) must remain in the penalty box or in the dressing room. Also, players serving penalties imposed during the Penalty-Shot Shootout must remain in the penalty box or in the dressing room until the end of the procedure.
- The Referees will call the two captains to the Referee Crease and flip a coin to determine which team takes the first shot. The winner of the coin toss will have the choice whether his team will shoot first or second.
- The goaltenders shall defend the same goal as in the overtime period.
- The goaltenders from each team may be changed after each shot.
- The shots will be taken in accordance with Rule 177 of the IIHF Official Rule Book.
- The players of both teams will take the shots alternately until a decisive goal is scored. The remaining shots will not be taken.
- If the result is still tied after five shots by each team, the procedure shall continue with a tie-break shootout by one player of each team, with a reversed shooting order. The same player can also be used for each shot by a team in the tie-break shootout. The game shall be finished as soon as a duel of two players brings the decisive result.
- The Official Scorekeeper will record all shots taken, indicating the players, goaltenders, and goals scored, but only the decisive goal will count in the result of the game.
- If a team declines to participate in the Penalty-Shot Shootout procedure the game will be declared as a loss for that team and the other team will be awarded three points for a win. If a player declines to take a shot, it will be declared "no score" for his team.

IIHF Media Guidelines and Access Policy

GENERAL GUIDELINES FOR ACCREDITED MEDIA

The media centre, the press tribune in the arena, the mixed zones, and the media interview rooms are areas for working press only and officials associated with media relations and media services. We respectfully ask you observe the following rules in these working areas:

1. The wearing of national team sweaters or significant fan apparel in designated working areas for media is improper. Accredited journalists who do so will be asked either to remove the apparel or leave the area.
2. Excessive cheering and "fan behaviour" in the press tribune and media centre are strictly forbidden. Such conduct is unprofessional and disruptive for working media.
3. Accredited journalists are not allowed to ask players for autographs at any time in any of the above-mentioned designated media working areas.
4. Accredited journalists are not allowed to switch accreditation passes with representatives of other media outlets in order to gain unauthorized access to any part of the arena or for any other purpose.

Breach of these rules may result in the media accreditation being revoked.

GENERAL ACCESS POLICY

All accredited media have access to cover all team practices, game-day skates, and games. All accredited media have access to the media centre, the media tribune (press box), the mixed-zone area, and the media interview room.

POST-GAME MIXED ZONE

For the Men's World Championship, all players must walk through the mixed zone and be available to the media for interviews. For Women's World Championships and U18 events, players are available upon request. Players and assistant coaches will be available in the mixed zone approximately ten (10) minutes after the end of the post-game ceremonies. The general media access period is 30 minutes, starting from the moment the first player arrives. Media officers of the teams will take requests from the media for interviews of players and assistant coaches and will make them available in the mixed zone.

All players are available to the media during the general access period. Up to five players are required to appear in the mixed zone. Media officers are advised that those players for whom the greatest number of requests is made should be available in the mixed zone. If, after a reasonable

time, the team's media officer determines that there is no media interest in particular players, they may be excused.

The media officer should inform media whether one of the requested players is selected for doping control. That player will be made available to media upon the conclusion of the doping control procedure.

Rights holders (TV and radio) have first priority to player interviews in the mixed zone area and are allowed to interview players immediately after they have come off the ice.

POST-PRACTICE INTERVIEWS

All interview requests after practices should be forwarded to the team's media officer or team host. Interviews will take place in the mixed zone of either the main rink or the practice facility. The general media access period after non-game day practices is 30 minutes, starting from when the first player arrives. Any player who leaves practice prior to its conclusion will remain available for the general media access period unless alternate arrangements are made by the team's media officer.

Coaching staff and the media officer are entitled to limit game-day interviews to 15 minutes. Interview requests on other occasions during the championship should be addressed to the team's media officer. Players and coaches have the right to decline requests for impromptu interviews in other areas such as the team's hotel.

GENERAL INFORMATION

Following a practice or game, players who must remain in the dressing room for medical treatment for any portion of the access period must be available in the mixed zone as soon as possible after the treatment has been completed. When a player's medical treatment takes longer than 30 minutes, the team's media relations officer should make appropriate arrangements for the player to meet the media.

RIGHTS-HOLDER INTERVIEWS IN THE MIXED ZONE

All pre-game and post-game interviews, including those during the intermissions by the rights-holders in the mixed zone, must take place in front of the rights-holders interview area or in front of the official IIHF World Championship backdrop area.

TV & RADIO FLASH INTERVIEWS

The IIHF recommends that teams participate in flash interviews after the first and second periods if requested by the broadcaster. The maximum time allowed for a flash interview is 60 seconds.

The mixed zone is where journalists and players meet and talk hockey at IIHF tournaments.

GAMES BY FORFEIT & ALTERED SCORES

OG-M		
February 10, 1976	Poland 1-Czechoslovakia 0	
(CZE won, 7-1, but a doping violation to Frantisek Pospisil overturned the result)		
February 18, 1988	France 2-Poland 0	
(POL won, 6-2, but a doping violation to Jaroslav Morawiecki overturned the result)		
February 23, 1988	France 8-Norway 6	
(FRA won the shootout, 2-0, and both goals were counted in the final score)		

WM

February 25, 1933	Italy-Belgium (Belgium forfeit)	
(no score assigned to the game but Italy given the superior position in the final placings)		
February 10, 1934	Czechoslovakia 1-Hungary 0	
February 11, 1934	Germany 1-Hungary 0	
(HUN withdrew from the tournament, resulting in two forfeits)		
February 26, 1937	Hungary 5-Poland 0	
February 27, 1937	France 5-Poland 0	
(in a dispute with the IIHF over tournament format, POL refused to play HUN or FRA as it had beaten both teams earlier in the tournament and felt it didn't have to play either again)		
February 18, 1949	Norway 5-Denmark 0	
February 19, 1949	Finland 5-Denmark 0	
(several DEN players fell ill and the team was forced to withdraw, resulting in two forfeits)		
1953		

On the second-last day of the tournament, the Czechs withdrew from competition, citing the death of their president. However, the IIHF believed the real reason for their early departure was that they had no chance to win gold and simply didn't want to play. At first, Sweden and Switzerland were given 5-0 wins by forfeit, but after the tournament ended IIHF president Fritz Kraatz had all scores and statistics from the Czechs and their games nullified.

March 12, 1961	East Germany 5-West Germany 0	
(For political reasons, West Germany refused to play East Germany, resulting in a forfeit)		
April 6, 1974	Poland 5-Sweden 0	
(SWE won, 4-1, but a doping violation to Ulf Nilsson overturned the result)		
April 12, 1974	Czechoslovakia 5-Finland 0	
(FIN won, 5-2, but a doping violation to Stig Wetzell overturned the result)		
April 27, 1987	Czechoslovakia 4-United States 0	
(CZE won, 4-2, but a doping violation to Scott Young stripped USA of its goals)		
April 18, 1989	Canada 8-United States 0	
(CAN won, 8-2, but a doping violation to Corey Millen stripped USA of its goals)		
May 2, 1994	Finland 7-United States 0	
(FIN won, 7-2, but a doping violation to Bill Lindsay stripped USA of its goals)		

WM20

January 4, 1987	Canada 4-Soviet Union 2	
(2nd-period brawl resulted in the cancellation of the remainder of the game. Both teams were disqualified from the tournament and statistics from this game were cancelled, but all previous results involving these teams and all statistics from those games counted.)		
December 28, 2021	Switzerland 1-United States 0	
(entire USA team forced to quarantine after two positive COVID-19 results, resulting in a forfeit)		
December 29, 2021	Finland 1-Czechia 0	
(entire CZE team forced to quarantine after one positive COVID-19 result, resulting in a forfeit)

Slovenia (SLO)

Slovenia's WM18-I-B team earned promotion to I-A for 2025, one of three teams from that country to move up (WM-I-A, WM20-I-B).

Joined IIHF: May 6, 1992
 (Croatia and Slovenia split from Yugoslavia (joined IIHF in 1939) on June 25, 1991; Yugoslavia became Serbia & Montenegro in 2004; became Serbia on September 28, 2006 after Serbia and Montenegro split and only Serbia maintained IIHF membership status). For Yugoslavia see Serbia.

GAMES OF THE VIth OLYMPIAD

April 23-September 12, 1920

(Winter Olympics held April 23-29, 1920)

Antwerp, Belgium

Final Placing

Gold.....	Canada	5th.....	Switzerland
Silver	United States	6th.....	France
Bronze....	Czechoslovakia	7th.....	Belgium
4th.....	Sweden		

Tournament Format

The Bergvall system of elimination was employed, that being a unique knockout format between the nations in the first round. Those who won went on to compete for the gold medal; those who lost games to the champion—Canada—played another knockout series for the silver; and those who lost games to the silver medalists—the United States—went on to play for the bronze. France received a bye in the first playdown and thus qualified right away for the gold medal round.

Venues: All games played at Palais de Glace d'Anvers

Chamonix, France

Final Placing

Gold.....	Canada	4th.....	Sweden
Silver	United States	5th.....	Czechoslovakia, France
Bronze....	Great Britain	7th.....	Belgium, Switzerland

Tournament Format

Eight nations were divided into two groups of four teams and played a round-robin series within each group. The top two teams advanced to the finals. Preliminary round games between teams that advanced to the finals were carried over. The preliminary games consisted of three 15-minute

periods, but the finals were three 20-minute periods, and all were played at the Stade Olympique du Mont Blanc.

Venues: All games played inside speed-skating oval (outdoors)

3rd OLYMPIC WINTER GAMES

February 4–15, 1932

Lake Placid, United States

Final Placing		
Gold.....	Canada	Bronze ... Germany
Silver	United States	4th..... Poland

Tournament Format
Teams received two points for a win and one for a tie. With just four teams entered — Canada, Germany, Poland, United States — each team played a double round-robin, two games against each opponent. Each game consisted of three, 15-minute periods. A two-referee system was used and all hockey matches were officiated by the same two men, Lou Marsh of Canada and Don Sands of the United States.

Venues: S=Olympic Stadium (outdoors); A=Olympic Arena

Silver	Canada	7th.....	Austria, Hungary
Bronze.....	United States	9th.....	Italy, France, Japan, Poland
4th.....	Czechoslovakia	13th.....	Belgium, Latvia, Switzerland

Tournament Format

The 15 entries were divided into four divisions (three of four teams, one of three teams) and played a round-robin series within each division. The top two countries then advanced to a semi-final round and the top two from that advanced to the finals. Any ties in the groupings would be decided by total number of goals scored in the Games. Games consisted of three 15-minute periods and each team could dress only ten players. Three substitutes per game were allowed.

An extremely important, complex rule for the final round stated that any team that had beaten another in a previous round did not have to play against that same team in the finals. Instead, they were automatically given two points for the earlier win (the one win, therefore, counted two points in both the semi-final and final rounds for Britain at these Olympics). Thus, Canada's loss to Great Britain in the semi-finals virtually assured them of losing the gold medal, for they couldn't play that team again in the final round to avenge the earlier defeat.

5th OLYMPIC WINTER GAMES

January 30–February 8, 1948

St. Moritz, Switzerland

Final Placing

Gold.....	Canada	6th.....	Great Britain
Silver.....	Czechoslovakia	7th.....	Poland
Bronze....	Switzerland	8th.....	Austria
4th.....	United States	9th.....	Italy
5th.....	Sweden		

Tournament Format

With nine teams entered, all were placed together with a simple round-robin format used as a schedule. Teams received two points for a win, one for a tie. In the final game, an overtime period would be played, but no overtime would be played throughout the balance of the round-robin. Teams could take 15 players to the Olympics, but only 12 (including a spare goalie) could dress for any one game. For the first time, all games now consisted of three 20-minute periods. In the case of a tie in the standings after the round-robin, goal average would decide the final positions. This meant dividing the goals scored by goals against. For instance, Canada scored 69 and gave up 5 for a figure of 13.8. The Czechs, by comparison, scored 80 but surrendered 18 for an average of just 4.3. That is how Canada won the gold in St. Moritz.

Venues: P=Palace, S=Olympic Stadium (outdoors), V=Suvretta

Final Placing

Gold.....	Canada	6th.....	Poland
Silver.....	United States	7th.....	Finland
Bronze....	Sweden	8th.....	West Germany
4th.....	Czechoslovakia	9th.....	Norway
5th.....	Switzerland		

Tournament Format

All nine countries were placed in a single division, and the schedule was again a simple round-robin format, each nation playing all others once. There was no overtime in the event of a tie after 60 minutes of regulation play. If two teams were tied in the standings and a medal were at stake, they would play an extra playoff game. In case of a tie between three teams, the team with the better goal differential (goals allowed subtracted from goals scored) would be given the better placing in the final standings.

Venues: J=Jordal Amfi Stadium (outdoors, Oslo); D=Dahlenenga Arena (outdoors, Oslo); K=Kadettangen Stadium (outdoors, Sandvika); M=Marienlyst Stadium (outdoors, Drammen); L=Lillestrom Stadium (outdoors, Lillestrom)

Tournament Format

Ten teams were divided into three groups, each playing a round-robin schedule within that group. The top two teams from each section then advanced to a six-team finals round. The team with the most points among the six (two points for a win, one for a tie) won the gold, with goal differential being the deciding factor in the event of a tie. If still tied, goals against average would be the last method to decide the winner. Tie games after 60 minutes of play would not be decided by overtime.

Tournament Format

The format remained unchanged from the one used in Cortina d’Ampezzo in 1956. The nine competing countries were divided into three pools of three teams, each pool playing round-robin games with the others in their division. The top two teams from each pool then advanced to a six-team finals round-robin, the gold medal going to the team with the most points (two for a win, one for a tie). In the event of a tie in the standings, goal differential would decide the winner.

Venues: All games played at Blyth Arena

*West Germany represented Unified Teams of Germany

Tournament Format

A simple round-robin format was used, the winner being decided by points (two for a win, one for a tie, as always). In the event of a tie in the standings, the team with the better goal differential (goals allowed subtracted from goals scored) would finish ahead. If this calculation did not yield a winner, head-to-head wins would be decisive followed by goal average (goals scored divided by goals allowed).

Venues: S=Olympiahalle; E=Messehalle

Tournament Format
The top eight teams were grouped into a medal round section, each playing a round-robin schedule. The top team in the standings (two points for a win, one for a tie) would win the gold medal. In the event of a two-way tie, the winner of the head-to-head game would get the gold. If there were a tie between more than two teams, goal differential (goals against subtracted from goals scored) would be the deciding factor.

Venues: S=Palais des Sports; R=Municipal Skating Rink

12th OLYMPIC WINTER GAMES

February 4-15, 1976
Innsbruck, Austria

Final Placing

Gold.....	Soviet Union	7th.....	Romania
Silver	Czechoslovakia	8th.....	Austria
Bronze	West Germany	9th.....	Japan
4th.....	Finland	10th.....	Yugoslavia
5th.....	United States	11th.....	Switzerland
6th.....	Poland	12th.....	Bulgaria

Tournament Format

The six teams were grouped into a medal round section, each playing a round-robin schedule. The top team in the standings (two points for a win, one for a tie) would win the gold medal. In the event of a two-way tie, the winner of the head-to-head game would get the gold. If there were a tie between more than two teams, goal ratio would be the deciding factor.

Venues: S=Olympiahalle; E=Messehalle

Tournament Format

The 12 teams were divided into two groups of six, all teams playing a round-robin schedule within each group. The top two teams from each group then advanced to a four country round-robin medal round with the results from the qualifying round between qualifying teams counting in the finals round as well. In the event of a tie in the preliminary round standings, head-to-head results would be the first determining factor. If that game were a tie, then overall goal differential would decide the issue.

Tournament Format

The 12 teams entered in the Olympics were divided into two groups of six and then played a round-robin schedule within each division. The top three teams in each pool then advanced to a medal round in which all previous results against opponents in the medal round counted. The other teams were placed in another pool to determine 7th–12th place rankings. In the case of a tie in the final standings, goal differential would be the deciding factor.

*called Unified Team during Olympics; name changed after to reflect roster

Tournament Format

The 12 competing nations were divided into two pools of six teams each and played a round-robin schedule within each group. The top four teams from each then advanced to a playoff round elimination quarter-finals. The top team in group A played the fourth team in group B; the top team in group B played the fourth team in group A; the second team in group A played the third team in group B; and, the second team in group B played the third team in group A. The elimination play-offs (a quarter-finals, semi-finals and finals) represented a new way to bring excitement to the Olympics.

In case of a tie in the standings in the preliminary round, goal differential only in games played between those teams that were tied would be the deciding factor (for example, Canada tied with Unified Team and Czechs but wound up on top). In the elimination playoff round, there would be a 10-minute sudden-death overtime period, then a penalty shot-style shootout after 70 minutes if the game were still tied.

Venues: All games played at Meribel Ice Palace

Tournament Format

The format was the same as that for the 1992 Olympics: the 12 competing nations were divided into two pools of six teams each and played a round-robin tournament within each group. The top four teams from each group then advanced to a playoff elimination round.

In the case of a tie in the standings in the preliminary round, goal differential in games played only between those teams that were tied would be the deciding factor (in group B, for instance, Canada was given second place over Sweden because it had beaten the Swedes 3–2. In group A, with six points each, Germany, Czech Republic, and Russia were tied, but their ranking reflected the goal differentials (4–3 for Germany, 4–4 Czech Republic, and 6–7 for Russia). In the elimination round, a ten-minute overtime period would be followed by a shootout until a winner was decided.

Venues: C=Olympic Cavern Hall (Gjovik); H=Hakons Hall (Lillehammer)

Tournament Format

To allow for NHL participation, the tournament was divided into three distinct stages. The preliminary stage featured the eight lowest ranking teams to qualify for the Olympics. These eight were divided into two groups of four teams each and played a round robin series of games within each group. The top team from each then advanced to the main draw which featured the "big six" of Canada, Russia, Czech Republic, Sweden, Finland, and United States. Again, the eight teams were put into two groups of four and played a round robin within each.

To ensure quality, this stage did not eliminate any teams. Instead, it allowed the players traveling halfway around the world from the NHL a chance to acclimatize to the time difference and play three games with new teammates. The positions of the teams then determined the quarter-finals matchups. The top team in one group played the fourth team in the other, and second place played third place in crossover games as well. This led to semi-finals and finals to determine medal winners.

Qualification

The top nine teams after the 2008 World Championship automatically qualified for Vancouver in 2010. The remaining three teams (Germany, Latvia, Norway) won their groups in final qualification games.

Tournament Format

For the third year of NHL participation the format changed slightly. Gone was the first round of games and instead all 12 nations started playing at the same time. Two groups of six teams played a round robin within each group, the top four from each advancing to a quarter-finals playoffs of crossover elimination games.

24th OLYMPIC WINTER GAMES

February 4-20, 2022
Beijing, China

Final Placing

Gold.....	Finland	7th	Denmark
Silver	ROC*	8th	Switzerland
Bronze ...	Slovakia	9th.....	Czechia
4th	Sweden	10th.....	Germany
5th	United States	11th.....	Latvia
6th	Canada	12th.....	China

*following a decision by the Court of Arbitration in Sport, Russia must be referred to as ROC (Russian Olympic Committee) from February 19, 2021 to December 16, 2022, as a result of doping violations during the 2014 Olympic Winter Games.

Tournament Format

All 12 teams were placed in three groups of four teams each and played a round robin series of games within each group. The teams were then placed in one standings, the top four teams receiving byes to the quarter-finals. Teams 5 through 12 played a qualification round, the winners also advancing to the quarter-finals, the losers being eliminated. The team ranked 5 played the team ranked 12, the team ranked 6 played the team ranked 11, and so on. Once the quarter-finals were set, the rest of the tournament was an elimination series of games until the semi-finals. Those winners played for the gold medal, and the losers played for bronze.

Venues: N=National Indoor Stadium; W=Wukesong Sports Centre

Zurich/Basel, Switzerland

(the IIHF considers the 1952 Olympics to be the 19th Men's World Championship)

Final Placing

Gold.....	Sweden
Silver	West Germany
Bronze....	Switzerland

Tournament Format

Each team was supposed to play every other twice, in a double round robin, but when the Czechs withdrew the tournament became a four-game series for each nation. All Czech results were not counted, though the scores are listed below.

Venues: Basel=Margarethenpark Stadion; Zurich=Hallenstadion

^Promoted from B Pool in 1997; *Relegated to B Pool for 1999

Tournament Format

For the first time, there were 16 teams in the tournament, divided into four groups of four teams each for the Preliminary Round. The top two from each group advanced to a Qualification Round which made them eligible for medals. The third place teams were put in another group for placement, and the bottom four were placed according to record, the last two being relegated. In the next round, the top two from each group advanced to a semi-finals round, the winners playing for gold, the losers for bronze.

~no teams promoted from B Pool in 1999

*Relegated to Division I for 2001

Tournament Format

There were 16 teams in the tournament, divided into four groups of four teams each for the Preliminary Round. The top two from each group advanced to a Qualification Round which made them eligible for medals. The third place teams were put in another group for placement, and the bottom four were placed in a relegation pool, the last two being relegated. In the next round, the top two from each group advanced to a semi-finals round, the winners playing for gold, the losers for bronze.

76th MEN'S WORLD CHAMPIONSHIP

May 4-20, 2012

Helsinki, Finland/Stockholm, Sweden

Final Placing	
Gold.....Russia	9th..... France
Silver Slovakia	10th..... Latvia
Bronze Czech Republic	11th..... Switzerland
4th.....Finland	12th..... Germany
5th.....Canada	13th..... Denmark
6th.....Sweden	14th..... Belarus
7th.....United States	15th..... Italy*
8th..... Norway	16th..... Kazakhstan*
*Promoted from Division I in 2011; Relegated to Division I for 2013	

Tournament Format
A new format was adopted at the same time as a new hosting structure was used. Finland and Sweden acted as co-hosts through to the quarter-finals, after which the remaining games (semi-finals, medal games) were played only in Helsinki. The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was relegated to Division I and only the top four from each group advanced to the playoffs. The bottom four teams didn't play again, the relegation round series having been abolished. The top team played the fourth-place team within each group for the quarter-finals, and the semi-finals saw teams cross over.

Venues: Helsinki=Hartwall Arena; Stockholm=Globen Arena

**following a decision by the Court of Arbitration in Sport, Russia must be referred to as ROC (Russian Olympic Committee) from February 19, 2021 to December 16, 2022, as a result of doping violations during the 2014 Olympic Winter Games.

^Because all levels of the 2020 World Championship was cancelled (coronavirus), there were no teams promoted from Division I-A in 2020 or demoted to Division I-A for 2022

Tournament Format

The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The bottom four teams didn't play again. The top team played the fourth-place team within each group for the quarter-finals, and the semi-finals saw teams cross over.

*On February 28, 2022, the IIHF Council held an extra-ordinary meeting (virtually) at which time it was decided that, because of the Russian invasion of Ukraine and the Belarussian support of the invasion, ROC/Russia** and Belarus would be expelled from all IIHF tournaments for at least the remainder of 2022. As a result, France and Austria, the next-highest teams in the World Rankings, were promoted to the top division.

**following a decision by the Court of Arbitration in Sport, Russia must be referred to as ROC (Russian Olympic Committee) from December 17, 2020 to December 16, 2022, as a result of doping violations during the 2014 Olympic Winter Games.

^demoted to Division I-A for 2023

Tournament Format

The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The top team of one group played the fourth-place team of the other group for the quarter-finals, and the semi-finals saw teams re-seeded.

*On February 28, 2022, the IIHF Council held an extra-ordinary meeting (virtually) at which time it was decided that, because of the Russian invasion of Ukraine and the Belarussian support of the invasion, Russia and Belarus would be expelled from all IIHF tournaments for at least the remainder of 2022. On March 22, 2023, that suspension was extended to include all events in the 2023-24 season.

^promoted from Division I-A in 2022; demoted to Division I-A for 2024

Tournament Format

The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The top team of one group played the fourth-place team of the other group for the quarter-finals, and the semi-finals saw teams re-seeded.

4th WORLD JUNIOR CHAMPIONSHIP

December 27, 1979-January 2, 1980

Helsinki/Vantaa, Finland

Final Placing

Gold	Soviet Union	5th	Canada
Silver	Finland	6th	West Germany
Bronze ...	Sweden	7th	United States
4th	Czechoslovakia	8th	Switzerland*

*Promoted from B Pool in 1979; Relegated to B Pool for 1981

Tournament Format

Eight countries were placed in two divisions of four teams each. All teams played a round-robin format within each division (three games each). The top two advanced to a four team medal round, the bottom two to a consolation round. Results from the preliminary round between teams that ended up in the same division in the next round were carried over so that no team played twice against any other in the tournament.

Venues: Helsinki=Helsinki Jaahalli; Vantaa=Higin Jaahalli

5th WORLD JUNIOR CHAMPIONSHIP

December 27, 1980-January 2, 1981

Kaufbeuren, West Germany

Final Placing

Gold	Sweden	5th	West Germany
Silver	Finland	6th	United States
Bronze	Soviet Union	7th	Canada
4th	Czechoslovakia	8th	Austria*

*Promoted from B Pool in 1980; Relegated to B Pool for 1982

Tournament Format

The same method was used in 1981 as the previous year. A preliminary round robin was set up in two divisions of four nations each. The top two advanced to a medal round robin, the bottom two to a consolation round. One important factor that came into play this year was a tie in the standings, with goal differential being the deciding factor. In the preliminary round, both Canada and Czechoslovakia had three points, but Canada finished third to the Czechs' second because of a poorer goal differential (the teams had tied 3-3 in the round robin).

6th WORLD JUNIOR CHAMPIONSHIP

December 22, 1981-January 2, 1982
United States (some games played in Canada)

Final Placing

Gold	Canada	5th	Sweden
Silver	Czechoslovakia	6th	United States
Bronze ...	Finland	7th	West Germany
4th	Soviet Union	8th	Switzerland*
*Promoted from B Pool in 1981; Relegated to B Pool for 1983			

Tournament Format

All teams were placed in one division and played a round-robin series of games. Tie games would not go into overtime, and ties in the standings were broken first by results between the tied teams (which is how the fourth place Soviets finished ahead of Sweden in the final standings).

Venues: Bloomington=Met Center; Brainerd=Brainerd Civic Arena; Brandon=Keystone Centre; Burnsville=Burnsville Arena; Duluth=Duluth Arena-Auditorium; Grand Rapids=Grand Rapids Arena; International Falls=International Falls Arena; Kenora=Kenora Arena; Mankato=All-Seasons Arena; Minneapolis=Augsburg Arena; New Ulm=Vogel Arena; Rochester=Graham Arena; St. Cloud=St. Cloud Arena; Virginia=Virginia Arena; Winnipeg=Winnipeg Arena

9th WORLD JUNIOR CHAMPIONSHIP

December 23, 1984-January 1, 1985

Vantaa/Helsinki, Finland

Final Placing

Gold	Canada	5th	Sweden
Silver	Czechoslovakia	6th	United States
Bronze ...	Soviet Union	7th	West Germany
4th	Finland	8th	Poland*

*Promoted from B Pool in 1984; Relegated to B Pool for 1986

Tournament Format

All eight teams were placed in one group and a simple round robin schedule was adopted. In the case of a tie in the standings between two teams, the result of the game between those two would be the first tie-breaker and goal differential the second decider. Thus, the Soviets won the bronze despite finishing with the same number of points as fourth place Finland because the Russians won the head-to-head game 6-5.

Venues: Espoo=Matinkyla Jaahalli; Helsinki=Jaahalli; Turku=Kupittaa Ice Arena; Vantaa=Tikkurila Jaahalli

11th WORLD JUNIOR CHAMPIONSHIP

December 26, 1986-January 4, 1987

Topolcany/Piestany/Trencin/Nitra, Czechoslovakia

Final Placing

Gold	Finland	5th	Poland^
Silver	Czechoslovakia	6th	Switzerland*
Bronze ...	Sweden		Canada—DQ
4th	United States		Soviet Union—DQ

^Promoted from B Pool in 1986; *Relegated to B Pool for 1988

Tournament Format

All eight nations were placed in one group and played a single round-robin schedule. Because of the Canada-Russia brawl, both nations were disqualified from medal contention. Thus, even though Canada had nine points in six games and Sweden had nine points in seven games, Sweden was awarded the bronze.

Venues: Nitra=Zimni Stadion Nitra; Piestany=Zimni Stadion Piestany; Topolcany=Zimni Stadion Topolcany; Trencin=Zimni Stadion Trencin

13th WORLD JUNIOR CHAMPIONSHIP

December 26, 1988-January 4, 1989

Anchorage/Chugiak, United States

Final Placing

Gold	Soviet Union	5th	United States
Silver	Sweden	6th	Finland
Bronze ...	Czechoslovakia	7th	Norway^
4th	Canada	8th	West Germany*
^Promoted from B Pool in 1988; *Relegated to B Pool for 1990			

Tournament Format

All eight countries were placed in a single division and played a round-robin schedule. The first factor in breaking a tie between two nations was the result of the head-to-head game in the round-robin (which is how the Soviets beat Sweden for the gold). The second determining factor was goals differential (goals against subtracted from goals for), which is how the Czechs beat Canada for the bronze.

Venues: Anchorage—Sullivan Arena; Chugiak—Fire Lake Recreational Centre

*Promoted from B Pool in 1989; Relegated to B Pool for 1991

Tournament Format

All eight teams played a simple round-robin in one division. A tie in the standings between two teams was broken first by the result of the game between the two (which is how Canada beat the Soviet Union for gold, and also why Finland was placed above Sweden in the final table). In case of a tie still, goals differential would decide the placings. Venues: Helsinki=Helsinki Jaahalli; Kerava=Kerava Ice Rink; Turku=Kupittaa Ice Arena; Vantaa=Myrskylampi Ice Rink

Tournament Format

The World Junior championships changed radically for the first time for these 1996 games as ten nations were now competing instead of eight. As a result, two divisions of five teams each were created and a dynamic playoff showdown replaced the more staid round-robin format. The preliminary round still consisted of four round-robin games, with the top team in each division earning spots to the semi-finals. The second and third place team from each division had a one game playoff to earn the other two spots, the second in one division playing the third in the other and vice versa. The semi-finals winners then played for the gold medal, and the semis losers played for the bronze. Ties in the preliminary round would be broken, as always, first by head-to-head results and then goals differential. In addition, there was a full round-robin in the relegation round between the four teams that did not advance to the playoffs. Previous results between those nations counted, and the team that finished last (fourth) was relegated to the 'B' pool for next year's tournament.

21st WORLD JUNIOR CHAMPIONSHIP
December 26, 1996-January 4, 1997
Geneva/Morges, Switzerland

Final Placing

Gold	Canada	6th	Slovakia
Silver	United States	7th	Switzerland
Bronze ...	Russia	8th	Sweden
4th	Czech Republic	9th	Germany
5th	Finland	10th	Poland*

*Promoted from B Pool in 1996; Relegated to B Pool for 1998

Tournament Format

With ten teams in the championships, a new format for the tournament was used (as in '96). Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze.

Venues: Geneva=Les Vernets; Morges=Les Eaux-Minerales

^Promoted from B Pool in 1997; *Relegated to B Pool for 1999

Tournament Format

As with the previous year, a shorter round-robin allowed for quick elimination of the weakest two teams while the top eight went on to a playoffs. The two teams that didn't qualify played a two-game total goals series to determine which would be relegated to the 'B' pool for the following year. A ten-minute overtime was used for ties only in the playoffs, after which time a shootout would settle a winner.

Tournament Format

Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and

the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze. The bottom four teams were placed in a consolation round pool to determine which two countries remained in the top pool the next year and which two were relegated.

27th WORLD JUNIOR CHAMPIONSHIP

December 26, 2002-January 5, 2003

Halifax/Sydney, Canada

Final Placing

Gold Russia 6th Czech Republic
Silver Canada 7th Switzerland
Bronze ... Finland 8th Sweden
4th United States 9th Germany^*
5th Slovakia 10th Belarus*
^Promoted from Division I in 2002; *Relegated to Division I for 2004

Tournament Format

Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze.

Venues: Halifax=Metro Centre; Sydney=Centre 200

30th WORLD JUNIOR CHAMPIONSHIP
December 26, 2005-January 5, 2006
Kamloops/Kelowna/Vancouver, Canada

Final Placing

Gold	Canada	6th	Czech Republic
Silver	Russia	7th	Switzerland
Bronze ...	Finland	8th	Slovakia
4th	United States	9th	Latvia*
5th	Sweden	10th	Norway*

*Promoted from Division I in 2005; Relegated to Division I for 2007

Tournament Format

Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze.

Venues: G=General Motors Place; I=Interior Savings Centre; P=Pacific Coliseum; S=Prospera Place

*Promoted from Division I-A in 2020

Because of coronavirus, the only U20 event played in 2020-21 was the top level World Junior Championship. As a result, no team was demoted in 2021.

Tournament Format

There were two divisions of five teams and each played a round-robin series in a preliminary round. The top four teams from each division qualified for the quarter-finals. Because of coronavirus, no teams were demoted and promoted to and from Division I-A.

All games played at Rogers Place

******On February 28, 2022, the IIHF Council held an extra-ordinary meeting (virtually) at which time it was decided that, because of the Russian invasion of Ukraine and the Belarussian support of the invasion, ROC/Russia* and Belarus would be expelled from all IIHF tournaments for at least the remainder of 2022. As a result, Latvia was promoted to the top division in place of ROC/Russia and Belarus, which had won Division I-A to earn promotion, was not promoted. Latvia had finished second in 2022 WM20 I-A.

*following a decision by the Court of Arbitration in Sport, Russia must be referred to as ROC (Russian Olympic Committee) from December 17, 2020 to December 16, 2022, as a result of dop-ing violations during the 2014 Olympic Winter Games.
^no teams relegated to Division I-A for 2023

Tournament Format

There were two divisions of five teams and each played a round-robin series in a preliminary round. The top four teams from each division qualified for the quarter-finals.

*On February 28, 2022, the IIHF Council held an extra-ordinary meeting (virtually) at which time it was decided that, because of the Russian invasion of Ukraine and the Belarussian support of the invasion, ROC/Russia** and Belarus would be expelled from all IIHF tournaments for at least the remainder of 2022. As a result, the IIHF elected to play this tournament with eight teams instead of ten. No teams were demoted and two teams from Division I-A in 2022 will be promoted for WM18 in 2023.
